

Goodbye Peter Foster!

The KS Environmental Group is sad to be saying goodbye to our Business Analyst Peter Foster as he embarks on his new adventures as a retired gentleman.

Peter has been with the company for 14 years, and will be missed not only for his unique analytical capabilities but also for his friendly, positive attitude and jovial nature.

Peter, who first started work 50 years ago in Brisbane at an engineering company, says *"I've been lucky, I've had a good working life, have enjoyed most of it but have found KS Environmental the most enjoyable. This is a great way to finish off my working career."*

Peter has mixed feelings about leaving the company, having really liked the work

he's been involved with over the past 14 years and will be leaving with fond memories of those he has worked with. *"At KS Environmental we worked hard to get the job done but had fun as well."*

On the other hand, Peter is looking forward to having more time for himself and to spend with his family. He's also planning to get back into golf and will be kept busy by tackling that big list of things to do around the house!

Peter and his wife Mary are also off on a well deserved 5 week holiday later on this year, a cruise through Scandinavia and a trip to the UK.

We wish Peter all the very best and will miss seeing his smiley face around the office.

Sleep Renovation

Mattress Collection • Re-use & Recycling

Great new service

Recently, KS Environmental has utilised the services of a Melbourne based company called Sleep Renovation to assist with the collection, re-use and recycling of mattresses which would otherwise have gone to landfill (taking up valuable space and incurring additional charges).

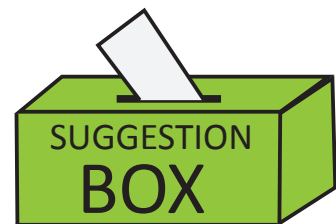

Their aim is to collect mattresses that can be re-used for welfare organisations. All

mattresses that are unstained and in good condition are deep cleaned and sanitised using their in-house cleaning system; they are then bagged and sent out to various charities.

Mattresses and bases are also refurbished exclusively for the use of welfare organisations and this year they plan to send out in excess of 15,000 mattresses/bases.

What cannot be re-used is recycled.

It's great to be able to use this socially responsible alternative for mattress disposal and KS Environmental will endeavour to use the services of Sleep Renovation when ever appropriate.

Feedback welcome

We warmly welcome your feedback and input. If there is any topic in particular you would like to see in our newsletter, or if you have anything you would like to share, please let us know by sending your feedback to:
